“ To Alesia’s family.....condolences to you all. May God give you comfort and peace in the days ahead. We were friends with James and Ann in Kaufman. Ann cooked many a good dinner for us. Bob would go duck hunting and fishing with James. Our son is named Keith after Keith Davis. We loved the name. Ann held my baby shower. Lesa was our 6 year old flower girl at our wedding. Lots of good memories of the Davis family. Memories never forgotten and always cherished.

“ Alesia was one of the best friends I ever had. Although years had gotten away from us things were always the same each time we talked or texted. You never break bonds like that when God has blessed you with a true friend and a lasting friendship. My prayers are with all of Alesia’s family and the many friends who loved her. She was “one of a kind”. You always knew where you stood with her, one of the many qualities I always admired. Our first words to each other well over 30 years ago were a bit negative and we were friends from that point on. Too many memories to write but memories that will last in my heart forever. Our last words to each other was “I love you”. Wouldn’t take nothing for them. She was strong and courageous. Thank you, God for my friend Alesia

“ What a wonderful co-worker Alesia was for so many years...always pleasant, conscientious and knowledgable. In recent months, when I knew she was suffering, I was amazed at how positive she was and how responsive she was to texts when checking in on her. She will always hold a special place in my memories.

“ I remember working in the kitchen with Alesia at Camp Waterbrook. Heather and I still wanted to go to camp, but we were too old so Mammie (Sharron Hawkins) let us go as “kitchen help.” Alesia taught us how to make cookies out of cake mix. I occasionally still make them and have fond memories of that time. Prayers for the Holbrook family!

“ ALESIA, writing this seems surreal. We just talked on phone this week before you left us.

I will miss your spunky personality, your laugh, your good cooking -like your mom. Your

positive spirit always made me feel happy! When you first starting working at the Conway

Human Development Center, you spent many weekends with us in LR and got to know James and Robert. Robert would call you ESEE for Alesia. We had some good times.

You helped Susan find special needs equipment for James, like the wheelchair the center made especially for James. The new feeding pump and bags, bath trolley, the wind breaker. I'm sure there are many other things. Our family will deeply miss you. I tell James Heaven was waiting for her and so were many family members. Death is part of life, but it sure is hard.

Heaven's gain, our loss. Let's celebrate her amazing life.

“ My favorite memories were of her letting my dog Daisy out while I was gone some weekends. She would sit at my house and watch TV so Daisy wouldn't be lonely. She would say Daisy crawled up in her lap (a 90 lbs lab) and would lay her head down, so she would stay for a while to make Daisy feel good. They became close and Daisy loved seeing her. Shows the kind of person she really was.

“ Alesia was a trusted friend. I'm so sad to hear this news of her passing. She may not have won the battle with her health issues, but she won the war of making it through this life with a sweet Christian spirit. I saw her just before she officially retired from CHDC. We weren't sure we would see each other again before her actual day of retirement and I knew she had be sick, so I really felt a sad separation that day. I will miss her, and her friendship, guidance on issues of common interest, and her special way with others.

“ Thankful to have cousins that were close and would come visit. Growing up we had garden in our backyard and mom and dad kept veggies we harvested in the storage shed. We would be sent out to get some for mom to cook for dinner. One of the times she was visiting us she, my sister and I went out to shed. I was walking ahead and then my sister or she apparently not paying attention we had walked right by a grass snake. She was behind us and she saw the snake and screamed snake and all the potatoes or onions we had went flying through the air. Never forget that! She made us homemade bread one time while she was there too. She always was one of the first ones to call and offer help when someone was sick too. She would call and check on them. Go to the hospital and stay if she was needed. When our moms got too old to organize Thanksgiving Meal she took over and kept things going. So thankful our families stayed close and made a point of spending every Thanksgiving and most Memorial Days together. So blessed to have been in her family. She will be

missed in so many ways.
