“ Alan and Walt, so sorry to hear about your mother. I have such fond memories of her when we were in the Cub Scouts and church. Those den meetings we had at your house making cardboard swords and shields were so much fun. She was so creative. We also wore the grass down in your back yard playing sports and games. I even remember the shed in your yard where you had the chemistry set. I think you and Walt were destined to become physicians. The genetic gene pool put you over the top. She will be missed but what great memories she left. Your friend, Butch Dollar
