“ I worked with Danny for 25 years. He was a great person to work for and with. I always admired his hard work and leadership. I remember being frustrated with a task and asked Danny to see if he could help me. He completed the task and acted like no big deal, just another day at work. He was always calm and collected even when things were at their worst adding a stabilizing force to our group. He was the kind of person that you knew he would never ask of you anything he wasn't willing to do himself. My life and work world were greatly improved by him being there. I will always remember him and want his family to know what a great person he was. Thanks for all your help Danny, Gerald Pearson Avionics Line Mechanic Memphis TN.

Debbie, Jamie, I met Danny in Jacksonville Florida in Navy aviation "A" school. after 9 months of that we were assigned to the same squadron in San Diego. We rented an apartment in Pacific beach and moved off the base. We both went to the Tonkin gulf and fixed F4 Phantom airplanes. We each took a months leave and drove from San Diego to Perryville in Danny's TR3. We stayed at Danny's mom and Dad's for a couple of weeks and got Flagstaff Arizona before the right rear wheel fell off. The last time I talked to Danny was January 2nd 2020. I tried to call today and got a disconnect and had a bad feeling. I checked for obits in Russellville Arkansas and unfortunately found this. Danny was one of my best friends. Danny called me Snake as everyone we knew in the Navy did people started calling me that in "A" school because of Danny the name followed me. Rest In Peace Danny Bull you were one of the best.
