“ *My condolences to the family. I only knew Don and Carol, but, Don and I knew each other since the first grade. He was only two days older than I and we spent a lot of time together in our early years. I seem to remember he was the one that arranged for our class to visit a turkey farm. Not sure if that is correct. I only saw him a few times in the past two years but I will miss him. Ben*

“ My father was the greatest father I could have ever asked for until I turned into a problem adult! Lol As a child he loved me more then anyone could ever love someone and I could see the sunset or rise in his eyes when he looked at me each. He was my entire world and he has always been my hero. I admired him and wanted to be just like him and as good of a person as he was. He was completely amazing and I wish that I could have changed so many things that I always and still want for my life that he would be proud of! I hope that in heaven he can look down upon me and see those things when I've accomplished them and that he can see inton my heart to better understand me and know the love I have for him is golden! I love you dad! Now till eternity
