“ *I remember George from Timex back in the 70's and 80's. I reported to his department head so I got to witness some of the tools and other pieces he crafted in the tool room. He was a very talented man in his trade.
During the time I knew him he invented a minnow bucket that had an insert in it to raise minnows up out of the water for catching. I was lucky to have been gifted one that lasted many years.
My sympathy to the family on his passing.*
