“ *To The Trafford Family: May God Bless you at this time of loss. This is also a time of celebration of a life-well lived. He raised a wonderful family. Mr. Trafford was a faithful and hard-working public servant at the Arkansas Department of Health (ADH). He performed valuable services to the citizen of Arkansas by inspecting milk production facilities and dairies in Arkansas. This critical service ensured that children and adults received good, wholesome and nutritious milk. I was blessed to know him for several years because his office was near mine at the main offices of ADH in Little Rock, He always came by and gave me a warm greeting with his infectious smile and said hello. He always asked if I was doing well. He was a wonderful, engaging and positive presence. Even the people at the milk producing facilities that he inspected not only respected but loved him as well. Mr. Trafford was much loved and will be greatly missed by all of us. Reg Rogers Arkansas Department of Health , Office of General Counsel*

“ *I am so sorry to hear of John's passing. I will always remember his professionalism, love of his family, and his humor. It was never a dull moment in his presence.*

We worked together at the AR Dept. of Health. He worked in the Milk Program, and I worked the Lab. Our work units worked well together in protecting the citizens' health. If someone needed to know anything about the milk industry, you asked John.

He will be sorely missed, but never forgotten. My prayers are with the family.
