“ Lou has, I am sure, reached his reward in heaven. I hope part of that reward has been being told what UFOs are all about. Lou's life certainly should have led to at least this reqard, and I assume many more. Maybe Lou will be allowed to rest before his next assignment. Lou, may we meet again in heaven or in our next assignments. Fair well and thanks for the memories.

“ Dear Lou will be missed by many people, for many reasons--some of us who are as committed as he was to the ongoing search for a greater understanding of "reality," some of us who just admired or loved him for his integrity, his kindness, his loyalty and humility--and some of for all of these reasons, and more. Lou's Eureka Springs UFO Conference made possible not only increased awareness and understanding of a wide range of strange events in this world, it was also the kind of great fun I remember as a kid...and seldom experience anywhere anymore. Lou was special. RIP

“ I'll always remember Lou as a man of integrity, passion, dedication, and humility. His tireless work toward providing a forum where all who were interested could come together to explore this fascinating and strange phenomenon of UFOs and related concerns is a remarkable accomplishment. With Lou, it was all about community and truth seeking and sharing, not about making money. Such a rare gift to today's world. Lou, you will be missed. I hope to see you again someday on the other side of the veil.

“ My father was in the same guard unit as Lucius. As a child we would eat there for Thanksgiving and Christmas at the National Guard assembly hall.

“ Lou brought so much knowledge back here on earth to the people, spreaded vital information and he led the way for the new earth. There is no greater service in the universe! He helped my wave of volunteers, the second wave with his work and i appreciate this and if there is one message i can deliver from the Et's: "He is loved for his beeing, his great shining soul. so Thank You from a StarSystem called Aldebaran Lou... “ Knew Lucius long-distance since late 1980s via a mutual interest in UFOs, the unexplained in-general. We never actually met, although I communicated frequently with him for a number of years, took the UFONS newsletter for quite some time, etc. He always seemed a nice fllow as well as being quite intelligent, and a witty sort also. No doubt the field(s) of research into the unknown in general will miss him a great deal.

Jeffrey Fsiher - June 29, 2018 at 10:00 PM

“ My sincerest sympathy....he will be greatly missed.
