“ *I remember, & will never forget, not long before she went into the flower business she seriously considered for sometime having a worm farm; boy we had fun with that idea of hers. I am glad she went with flowers they are so much more aesthetically pleasing.*

“ Curtis & Kim ...

You both have my deepest sympathy in Kay's passing. I have so many fond memories of her when Kim and I were growing up as teenagers. She was a "fun and creative mom" for sure and there were no dull moments when she was around. She will live on forever in my heart.

My thoughts and prayers are with you.
