“ *I met Shanna through Ancestry earlier this year, as I was searching for my unknown biological father. Ancestry DNA said me and Shanna were 2nd cousins. I sent a message to Shanna through Ancestry, as I had so with many other distant cousins. Shanna responded. We communicated through messenger and Ancestry. She didn't know me at all, but was willing to help. I am forever grateful for Shanna's help. We determined we were kin through our Great Grandfather Jessie Durham. That missing link led me to find a relative of his that lived in the area. I did and discovered my paternal side of my family. I met with Shanna at her home back in the summer to go over some Durham family history. I will always be grateful and blessed that I got to meet my 2nd cousin Shanna.*
